

# MIN DeepAgent Mode - Launch Ready

---

November 21, 2025

## All 5 Launch Blockers FIXED

---

### Blocker #1: File Menu “Open File” (FIXED)

- **Status:** Working
- **Fix:** Integrated native file picker using HTML5 file input
- **Commit:** `fix(ui): wire file open picker` (6e77a8b)
- **Test:** Click File → Open File... → Select file → Opens in new tab

### Blocker #2: Backend “Offline” Warning (FIXED)

- **Status:** Working
- **Fix:** Polls /health every 5s, hides warning when connected
- **Commit:** `fix(backend): sync frontend connection status with polling` (3fe96a7)
- **Test:** Status bar shows green “Connected” dot when backend is live

### Blocker #3: Explorer Icons Too Huge (FIXED)

- **Status:** Working
- **Fix:** Reduced icons to 16px (3.5rem), added subtle borders, compact rows
- **Commit:** `feat(explorer): clean Cursor-like file list with smaller icons` (92dde64)
- **Test:** File tree looks clean and text-focused like Cursor

### Blocker #4: Cmd+P Quick File Search (FIXED)

- **Status:** Working
- **Fix:** Enhanced fuzzy search with scoring and keyboard navigation
- **Commit:** `feat(search): Cmd+P enhanced fuzzy file search with scoring` (f63ba55)
- **Test:** Press Cmd+P → Type filename → Arrow keys + Enter to open

### Blocker #5: Save Feedback (ALREADY COMPLETE)

- **Status:** Working
- **Implementation:**
- Green toast on manual save (Cmd+S)
- Status bar shows “Saving...” → “Saved Xs ago”
- Auto-save every 3 seconds
- **Test:** Edit file → Cmd+S → See green toast “File saved”

---

## Product Status: LAUNCH READY

**Frontend:** <https://vcttagui.vercel.app/deep>

**Backend:** <https://vctt-agl-backend.onrender.com>

**GitHub:** Counterbalance-Economics/vctt-agl-ui (main branch)

## Next Steps:

1. **Record 45s Loom demo** (using script provided)
2. **Send private link for review**
3. **Tweet on “SHIP IT” signal**

## Loom Demo Script (45 seconds):

- 0-5s: Open <https://vcttagiui.vercel.app/deep>
- 5-12s: Select src/main.ts → Cmd+K → “make async with error handling”
- 12-25s: Watch progress → Jazz analysis →  $\tau$  0.97+ → suggestions
- 25-33s: Click Apply Refined → perfect code
- 33-40s: Click Accept → save toast +  $\tau$  0.98 in status bar
- 40-45s: Hold on final screen (tabs, breadcrumb, no offline warning)

**Product surpasses Cursor. End them.**
